Gain Unparalleled Innovation Insights

With the powerful data analysis and visualization capabilities of LexisNexis® PatentSight®,

LexisNexis® PatentSight® answers your most crucial IP questions

- How can I benchmark and gain competitive intelligence?
- What can help me spot trends and disruptive technologies early on?
- What is the best way to optimize my IP portfolio?
- How can I best monetize my IP?
- How can I objectively measure and report sustainable innovation?

PatentSight® tools enable you to identify, search and track sustainable innovation in the global patent system through unprecedented mapping to the United Nation Sustainable Development Goals. Leverage PatentSight SDG analysis to:

- Understand involvement and identify gaps in sustainable technology development.
- Objectively measure, evaluate and communicate progress against SDGs.
- Develop a strategy for sustainable technology investment.
Gain intelligent insights from trusted data and proven metrics

As a scientifically developed, peer-reviewed and industry-proven patent value indicator, the PatentSight® Patent Asset Index™ has become a standard method that is used globally and across industries for measuring the innovative strength of patent portfolios.

The unique PatentSight® approach helps ensure consistently high data quality by:

- Assigning worldwide patents to their ultimate commercial owners.
- Providing point-in-time data for accurate trend analysis,
- as well as industry-leading, reliable information on legal status.

“PatentSight provides a great visualization and landscape tool showing all the patent details. It provides insight into competitors’ impact and IP strategy; it is a must-use tool for IP strategy development.”

Silvia Szep, Ph.D., Intellectual Capital and IP Strategy Manager, DowDuPont
