

Gain Unparalleled Innovation Insights

With the powerful data analysis and visualization capabilities of LexisNexis® PatentSight®

LexisNexis® PatentSight® answers your most crucial IP questions

How can I **benchmark and gain competitive intelligence**?

What can help me **spot trends and disruptive technologies early on**?

What is the best way to **optimize my IP portfolio**?

How can I best **monetize my IP**?

How can I objectively measure and report sustainable innovation?

PatentSight® tools enable you to identify, search and track sustainable innovation in the global patent system through unprecedented mapping to the United Nation Sustainable Development Goals. Leverage PatentSight SDG analysis to:

- Understand involvement and identify gaps in sustainable technology development.
- Objectively measure, evaluate and communicate progress against SDGs.
- Develop a strategy for sustainable technology investment.

Gain intelligent insights from trusted data and proven metrics

As a scientifically developed, peer-reviewed and industry-proven patent value indicator, the PatentSight® Patent Asset Index™ has become a standard method that is used globally and across industries for measuring the innovative strength of patent portfolios.

The unique PatentSight® approach helps ensure consistently high data quality by:

- Assigning worldwide patents to their **ultimate commercial owners**.
- Providing **point-in-time data** for accurate trend analysis,
- as well as industry-leading, reliable information on **legal status**.

"PatentSight provides a great visualization and landscape tool showing all the patent details. It provides insight into competitors' impact and IP strategy; it is a must-use tool for IP strategy development."

Silvia Szep, Ph.D., Intellectual Capital and IP Strategy Manager, DowDuPont
